'Small School, Big Opportunities, Great Achievements'

Dear Parents/Carers,

Maths Catch Up Programme

You may be aware from the news, that the government has announced national funding to support children, who have had their education disrupted by the coronavirus (COVID-19) outbreak, to 'catch up' with their learning.

Through a settling in period at the start of the autumn term and initial assessments in reading, writing and maths, groups of children from each year group have been identified by their class teachers.

Your child will work with a class teacher or HLTA (Higher Level Teaching Assistant), and a programme of work has been planned for your child that aims to close any gaps or misunderstandings that have arisen in their learning.

Your child has been chosen for our maths 'catch up' programme led by Miss Brown.

This will take place on a Tuesday at **3.15pm – 4pm**.

The five dates for **spring term 2021** are:

Session 1 Y2: Tuesday 5th January

Session 2 Y2: Tuesday 12th January

Session 3 Y2: Tuesday 19th January

Session 4 Y2: Tuesday 26th January

Session 5 Y2: Tuesday 2nd February

Please e-mail the office by the end of the day on Monday if you are happy for your child to attend.

If you have any questions regarding these sessions, please don't hesitate to contact me via the school office office@thakehamps.co.uk

Regards,

Emma Hopkins
Assistant Head
